David Corner's involvement with Inclusion International has changed the way we work. As the representative for the largest and most populous region, we kept David busy! He travelled extensively in Asia Pacific and worked hard to hear the voices of members in the region. David's knowledge and experience as a self-advocate have been invaluable to our work. Amongst David's achievements, he has spoken at UN events, given advice on how to make the Sustainable Development Goal's inclusive and led IDA Bridge training. David is not afraid to challenge exclusion, and he has helped us to become a better, more inclusive organisation, and for that, we are deeply grateful. Many thanks to David for your work.
